

## Drilling & Completion Services

Agenda 1/4

08.15 **Registration & Morning Refreshments**

09.20 Roundtable Session 1:

**Gazprom Neft:** Well Design Optimization on the Tsarichanskoe Field

**TatNIPIneft:** TatNIPIneft: TAML 6 Completions, Creating A Hermetic Sealing Solution for Multilateral Wells

Almaz Mukhametshin, Lead Research Scientist

**Salym Petroleum Development:** Title TBC

10.45 **Coffee Break**

11.10 Roundtable Session 2:

**Gazprom Neft:** Results of TAML-4 Well Construction in the Novoportovskoe Field

**RN UfaNIPIneft:** Development and Use of Kill Weight Mud for Well Shut Off

Victor Gusakov, Head of Department

**TatNIPIneft:** Updating of Technical Requirements and Laboratory Test Methods for Cement - An Urgent Need for Technical Progress in the Construction of Wells in the Russian Federation  
Rustem Kateev, Head of Completion Laboratory, Ph.D.

12.50 **Lunch**

14.15 Roundtable Session 3:

**Rosneft:** Drilltec B2. Increasing Drilling Efficiency and Reducing Environmental Impact with Rosneft's Drilltec B2 Drilling Fluid

Dmitry Krepostnov, Project Engineer, Technology and Engineering Division, Well Construction Department, Rosneft Executive Office

**Gazprom Neft:** WBM Low Invasion Fluids Technology Implementation for Sidetracking Operations in Incompatible Geological Conditions

**Case Study:** TBC

15.40 **Coffee Break**

16.00 Roundtable Session 4:

**Gazprom Neft:** Automated Inflow Control Devices – Field Experience of First Field Trial in the Messoyakha Field

**Arctic LNG 3:** Well Construction Case Study Review of the PO-1 Well in the North Ob Licence Area

Pavel Marichev, Head of Offshore Wellhead Construction

17.25 **Close of Conference, Cocktail Reception**

# Drilling Equipment & Operations

Agenda 2/4

## 08.15 Registration & Morning Refreshments

### 09.20 Roundtable Session 1:

**Gazpromneft-Vostok:** Optimizing horizontal drilling in fractured carbonate reservoirs using MPD  
Sergey Korolev, Head of Drilling Engineering Department, Well Drilling Department

**Derrick Equipment Company:** How Important is Solids Control Equipment for your Drilling?  
Sergey Alentev, Head of Sales

**Gazprom Flot:** Increased Drilling Efficiency Using PDC Bits  
Viktoria Chulkova, Chief Specialist, Technology Department

## 10.45 Coffee Break

### 11.10 Roundtable Session 2:

**PNG Drilling Company:** PNG Drilling Experience in Operation of New Generation Robotized Drilling Rigs in Russia  
Zamir Abdullaev, General Director

**McCoy Global:** The More Advanced Technologies, the More Applications  
Alexander Astakhov, McCoy Global Representative for Russia and Former Soviet Union Countries

**OMV Russia Upstream GmbH:** Casing While Drilling  
Michael Nigg, Senior Drilling Engineer  
Jan Paul, Chief Scientist and Technology Manager

**Newtech Services:** Drilling Tools Manufacturing in Russia: New Horizons  
Dmitry Usoltsev, General Director, Hydrobur-service LLC

## 12.50 Lunch

### 14.15 Roundtable Session 3:

#### Drill Pipe, Inspection & Hardbanding

**Moderator:** Alexey Sadovnikov, General Director, DP Master

**Oleg Fomin:** Drill Pipe Identification and Asset Management Using RFID Tags  
Consultant, Oil & Gas Production Industry

**Hardbanding Solutions:** Duraband NC: Only a Quality Hardbanding Material Results in Significant Cost Savings While Protecting the Drill String  
Colin Duff, Director

**Bauman Moscow State Technical University:** Improving Wear Resistance of Threads, Subs, Drill Pipes, Casing and ESP Systems by Electromechanical Treatment  
Sergey Fedorov - Professor, Ph.D. Julia Ivanova - Associate Professor, Engineering Technology Department, Ph.D.

## 15.40 Coffee Break

### 16.00 Roundtable Session 4:

**Repsol:** Digitalization in Oil&Gas Well Construction  
Rustam Tadzibaev, ALREP JV Drilling Manager, REPSOL Russia

**Case Study:** One of the last remaining case studies available in Hall 2 at RDCR 2019.

**Click Here** for further information

## 17.25 Close of Conference, Cocktail Reception

# Well Integrity, Interventions & Production Operations

Agenda 3/4

08.15 **Registration & Morning Refreshments**

09.20 Roundtable Session 1:

**BP Russia:** Title TBC  
Martin Rylance (Frac-Pup), VP GWO Russia, Global Sr. Advisor (Frac & Stim) BP Russia

**Gazprom Neft:** CT Operations in HPHT Condition in Yamal Well's Cluster. Challenges and Proposed Solutions

**Rosneft:** Acid-Proppant Fracturing Treatments: the Step Forward  
Mikhail Samoilov, Head of Hydraulic Fracturing Sub-Department, "RN - Peer Review and Technical Development Center", LLC

**NOV Completion Tools:** Optimized Well Completion Design  
Fedor Paksyutkin, Account Manager

10.45 **Coffee Break**

11.10 Roundtable Session 2:

**Well Integrity**

**RN-UfaNIPIneft:** Development of In House Geomechanical Simulator for Modeling Wellbore Stability  
Aliya Davletova, Chief Specialist

**TGT:** New TGT Through-Barrier Diagnostics - Helping Ensure Seal Integrity in Challenging Wells in Siberia  
Aleksandr V. Zamkovi, Business Manager, Russia & Caspian Region

**Interwell:** In Well Barrier Integrity Testing and Documentation  
Arild Stein, Global Product Line Manager Electronics

12.50 **Lunch**

17.25 **Close of Conference, Cocktail Reception**

## 08.15 Registration &amp; Morning Refreshments

## 09.20 Roundtable Session 1:

**The Current State of Supervising in the Russian Federation**

**Moderator:** Alexey Schebetov, General Director, Ph.D., MBA R&D Center for Gas&Oil Tech

**Research & Development Center for Gas & Oil:**

Current Trends in the Supervising Services Market in Russia

Alexey Schebetov, General Director, Ph.D., MBA

**Tatneft:** Creating Supervising Services for Managing Day Rate Well Construction

Igor V. Guskov, Head of Supervising Department

**Rosneft:** Drilling Supervision Developments

Ruslan Yagofarov, Senior Manager, Supervision Support and Audit Department, Drilling Support Department

## 10.45 Coffee Break

## 11.10 Roundtable Session 2:

**Innovations in Supervising**

**Moderator:** Alexey Schebetov, General Director, Ph.D., MBA R&D Center for Gas&Oil Tech

**Gazprom Neft:** Increasing Efficiency at OAO Slavneft-Megionneftegaz by Using Internal Supervising Tools and External Supervisors

Aleksey N. Peshekhonov, Vasily P. Spiridonov and Aleksey V. Pimonov

**Research & Development Center for Gas & Oil:** Technologies for Creating and Implementing a Digital Supervision Set for Workover and Intervention

Artem Parkhomenko, Deputy Director-General

**Russian State Oil & Gas University:** Managing Geo Supervising - Innovative Technologies in Production, Education and Science

Valeriy V. Kulchitskiy, Professor, Ph.D.

## 12.50 Lunch

## 14.15 Roundtable Session 3:

**International Supervising**

**Moderator:** Alexey Schebetov, General Director, Ph.D., MBA R&D Center for Gas&Oil Tech

**Shell Exploration & Production Services (RF):** How Shell Wells Group is Leveraging its People Skills by Having a Unique Technical and HSSE Competency Program for its Front Line Barrier Managers (Supervisors)

Antoine D'Amore, KMPA Wells Lead

**Kirill Y Bogachev, Independent Supervising Expert:** Western Supervising System on the Russian Shelf**Drillbert Engineering:** Successful Drilling Supervision

John Mitchell, **Invited Expert!**

## 15.40 Coffee Break

## 16.00 Roundtable Session 4:

**Roundtable Discussion: Supervising Development Issues**

**Moderator:** Olga Kleptsova, Facilitator, MBA R&D Center for Gas&Oil Tech

## 17.25 Close of Conference, Cocktail Reception
